I. CLOSED SESSION

A.

FY2018 debt is estimated as \$25,681,925 with a projected Debt Burden Ratio of 5.81% and complies with the Board's Debt Management Policy.

For clarification, the Chair asked to better understand the funding sources for the new residence hall and asked if it comes from students paying to live in that residence hall. Ms. Swiecinski responded yes, that the funding source is the housing fee students pay to live there. The Chair then asked about the football stadium and the \$3,000,000 annual debt. Ms. Swiecinski responded that it will come from the capital reserve because the University has been very clear to the State that it would not increase student fees to cover the construction expense of the new stadium. She added that over the years, as part of the planning, the University has been building up a reserve in the event of adding football and Title IX sports.
