

Installing and Authorizing the .NET Framework version of windows, you might

_____ (version 3.5 Service
Pack 1 or higher) If you are unsure if you have the .Net

6. You will see the installation screen and the license screens. Click Next.

7. Read and accept the master agreement and then click Next

8. Select "Complete" and click Next.

*This is important to choose because it installs various geoprocessing tool extensions.

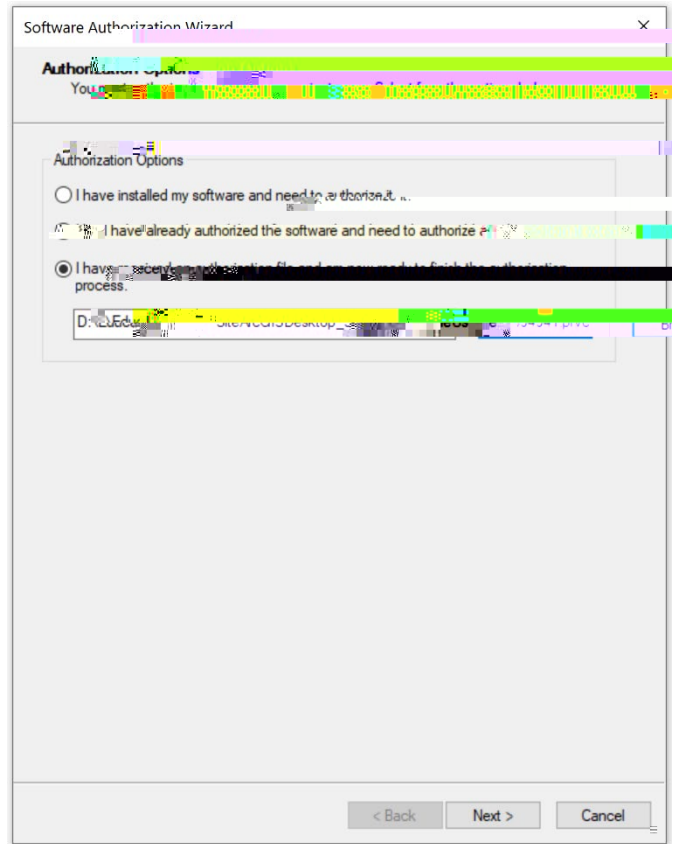

10.

C. Authorizing the License for ArcGIS Desktop

12. After the files are installed, the Authorization Wizard will open and prompt you to choose a product to authorize; select "ArcGIS Desktop Advanced (ArcInfo) Single Use" and click OK.

13. A new ArcGIS Administrator window will appear. Navigate to the Desktop folder on the left, click

14. The Software Authorization Wizard will present three options to choose from. Select "I have received an authorization file and now ready to finish the authorization process" and click Browse. Now browse to and Open the downloaded authorization file and click Next.

15. Select "Authorize with Esri using the Internet". Click Next

16. The next two screens will ask you to fill out personal information, do so accordingly. Then c

Software Authorization Wizard

Authorization Information

We will use the following information to modify your user profile and authorize your use of the software.

*First Name:

*Last Name:

*Organization:

Department:

*Address 1:

Address 2:

*City:

*State/Province:

*Zip/Postal Code:

*Location:

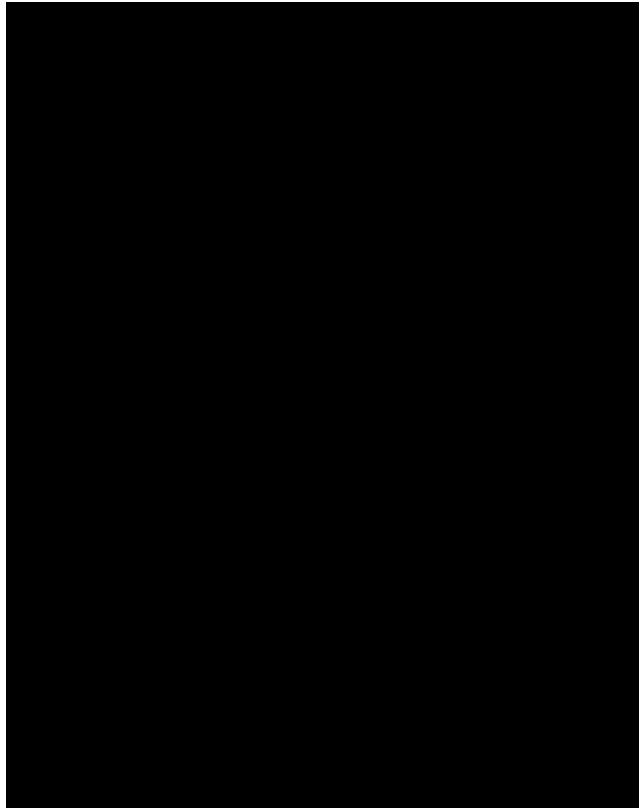

*Phone Number:

*Email:

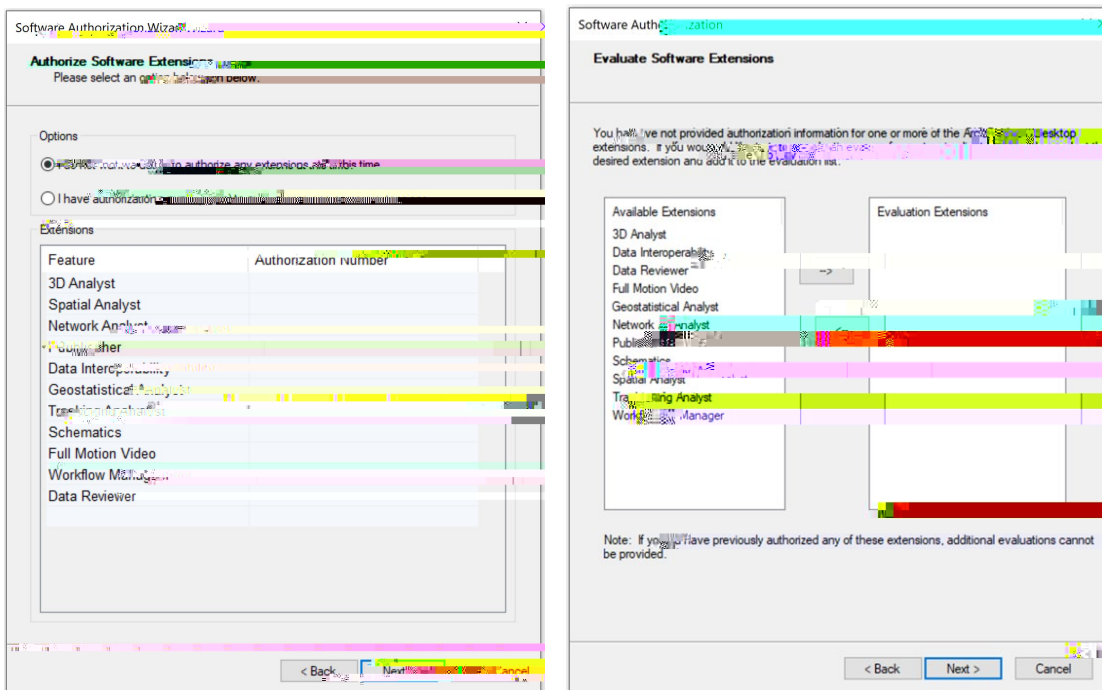

Comment:
Optional user-defined authorization description

< Back Next > Cancel

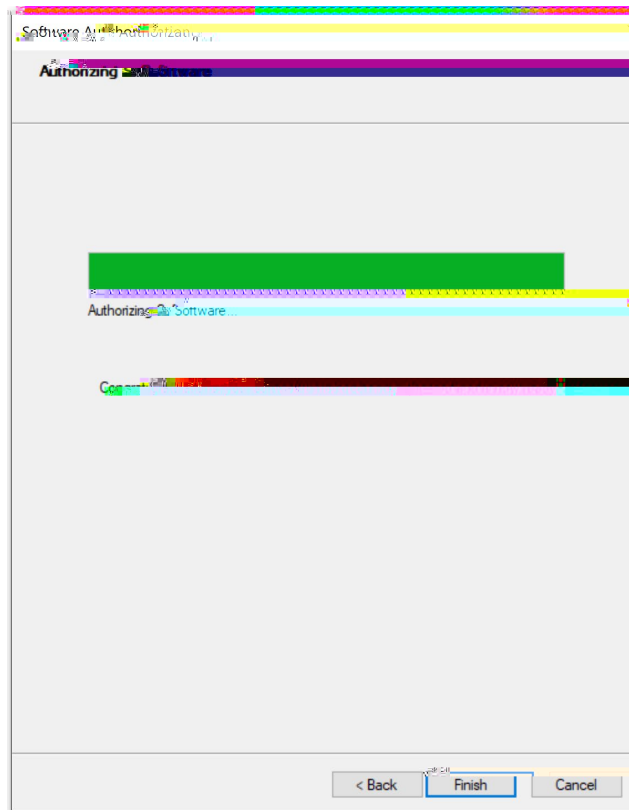

17. On the next screen, an authorization code should be already there (if not contact its help@odu.edu) Click next.

18. Leave the default “I do not want to authorize any extensions at this time”. Don't worry, the extensions will be authorized automatically regardless. Click Next Again, just click Next on the Evaluate Software Extensions window. (Section Discusses how to activate the extensions in ArcMap below)

19. The next Software Authorization screen might take a couple of minutes to authorize the software. Once Authorization is complete, click Finish.

If you are having any trouble installing the software, please contact itshelp@odu.edu. Please delete all the downloaded files from the links.

Support for the ArcGIS Desktop is available at <https://desktop.arcgis.com/en/arcmap/latest/getstarted/>

D. Activating ArcMap Extensions

20. Start ArcMap The first run for ArcMap always takes longer

21. Click “Customize” in the menu bar at the top and then click “Extensions...”, turn on the Extensions you need.
